- We will offer support to help those in need
- We will listen to our residents to ensure we always reflect the joy, hard work, creativity, and diversity of our community
- We will strengthen and sustain a culture of equity and inclusion that increases opportunities, programs, and resources, ensuring accessibility and service for everyone
- We will honor and value programs that focus on youth and education
- We will celebrate our rich agricultural history and culture
- We will be good stewards of resources and custodians of infrastructure
